IMM Global Executive MBA

The most personalized Global Executive MBA program

Enjoy greater flexibility—

Learn from home, anywhere in the world, between quarterly international residencies.

Excel in a truly global experience—

Go global with local immersion residencies that take you to seven countries on four continents.

Form stronger, more diverse networks—

Build tighter relationships with your cross-cultural classmates through a cohort learning structure.

Earn two MBA degrees—

One from Purdue University in the U.S. and one from TIAS (The Netherlands).

Benefits

When you are part of the IMM program, you will receive in-class and online instruction, an ipad, ebooks, housing, meals, social events, company visits, leadership development guidance, local transportation, and more. All this for only USD \$85,000.

Cohort

When you are part of the IMM program, you interact with managers facing challenges similar to your own. Colleagues have at least five years of work experience and an average of 13-16 years. They come from 8-10 countries around the world representing many different industries and functional areas. You start the program with your cohort and continue working with them until graduation and beyond.

Flexible Structure

The IMM Global EMBA is divided into a five-day launch week in the U.S. plus five 2-week residencies spanning only 19 months. Between residencies, students use online technology to prepare assignments, engage in discussions, work in teams, read ebooks, and watch instructor-prepared videos. The mix of online and on-campus learning allows you to strike a balance between personal and professional demands. You can work from anywhere in the world without interruption to your career and home life.
